

Feed Component Guide

for Toshiba Office Equipment

This guide is designed to help you order high quality, cost-effective Katun feed components for the Toshiba office equipment listed below. You can identify the correct Katun part number for a particular feed component in either of two ways:

1. **Cross-reference Katun part numbers with the OEM part number for a given feed component.**
2. **Locate the feed component in the appropriate machine illustration and then reference its identification letter in the product listing.**

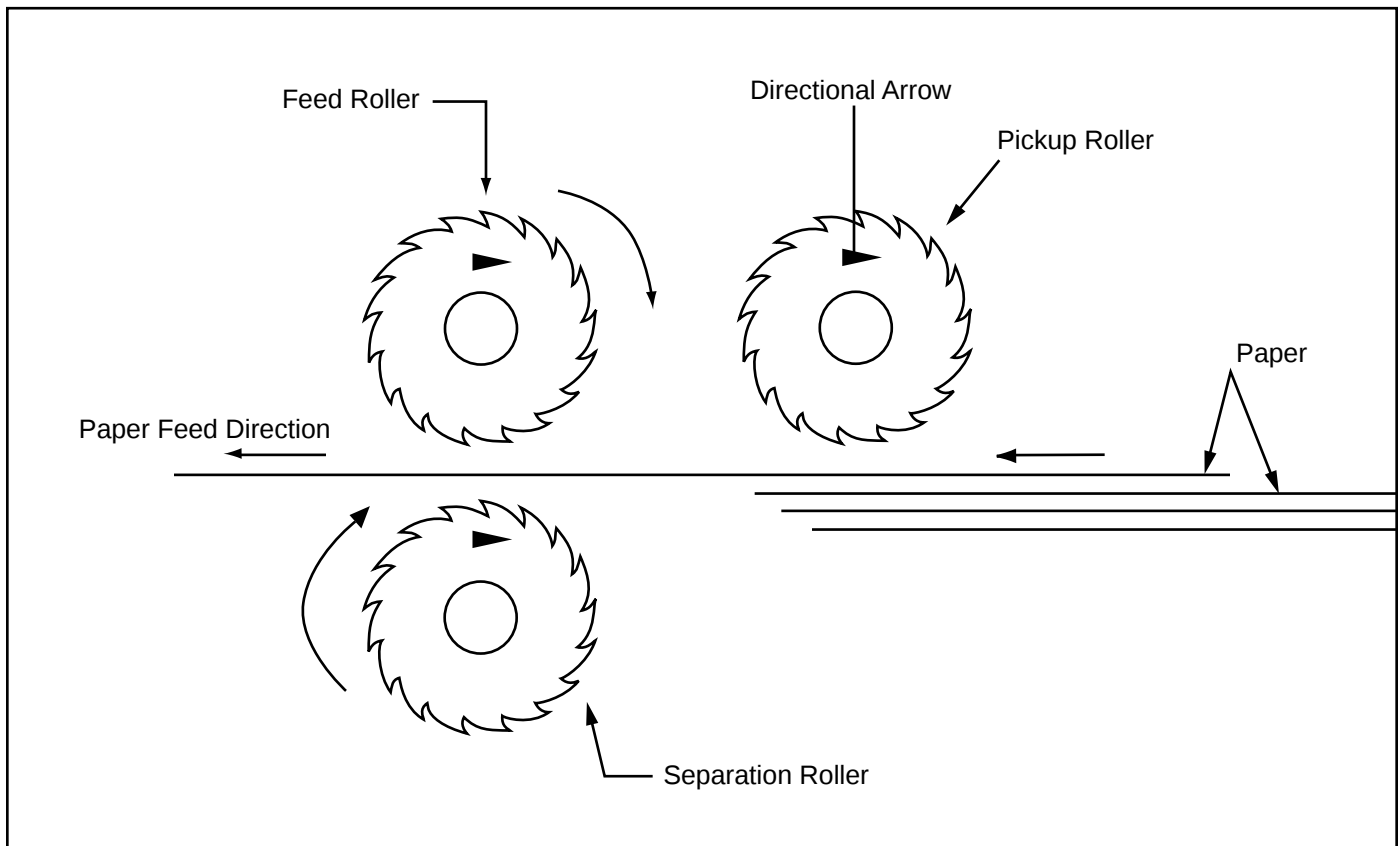

All Katun feed components are sold “tire only” unless otherwise noted.

Toshiba Model	Page Number
1650/2050/2540 (MR2002) (Lanier 6625)	3
2060/2860/DP 2460/DP 3580 (Lanier 7320/7328)	4
2510 (MR 3001)/2550 (MR 3003) (Lanier 6525/6725)	5 - 6
3550/4550 (MR 3003) (Lanier 6735/6745)	7 - 8
DP 4580/5570/6570 (Lanier 5355/5365)	9 - 10
5540 (MR 3003) (Lanier 6755)	11 - 12
6550/7550 (Lanier 6765/6775)	13 - 14

Visit www.katun.com/resourcecenter/referenceguides.html for the most current cross-reference information, then link to the Katun On-Line Catalogue for pricing and a complete listing of all the feed components available in your market.

Installing Katun Feed Tires? Proper Installation Ensures Excellent Performance

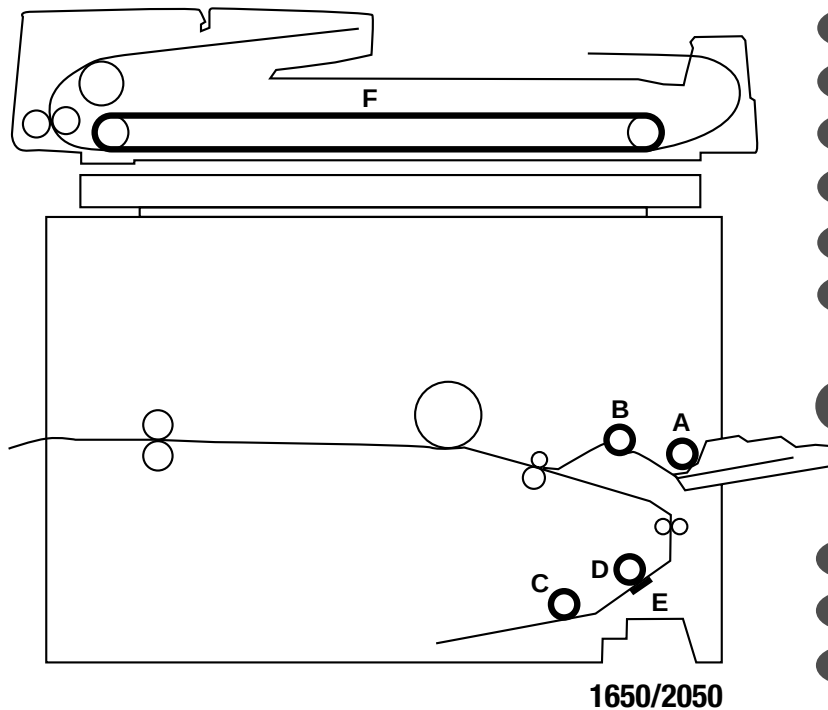

Most "crepe-style" (textured surface) Katun tire-only feed tires are imprinted with a directional arrow or mark. When installing, it is essential that the imprinted arrow points in the direction of required tire rotation. In certain machine applications, this may mean that the side for the tire that bears the imprinted arrow faces toward the technician; in other applications, the arrow side may face toward the rear of the machine.

Feed Component Care Tips

- Keep bags sealed tightly until feed components will be installed.
- Store feed components in a cool, dry, and dark location.
- Clean feed components ONLY with soap and warm water.
